Improving tactical integration and lethality across all domains
# ALSSA FY23 Campaign Plan

## Mission Statement
ALSSA synchronizes joint tactical warfighting capabilities and processes through digital/print media and professional networking to improve near-term multi-Service interoperability.

## Intent
ALSSA is the principal DOD organization charged with synchronizing multi-Service warfighting capabilities at the tactical level. We will accomplish this through professional networking, collaborative tools, digital media and any method that allows us to engage and inform the warfighter. Adaptability, credibility, and speed are the pillars of ALSSA’s organizational culture. These pillars ensure we provide timely, relevant, and accessible multi-Service solutions in ways that bolster the interoperability and lethality of the joint force.

## Risk
The principal risk to ALSSA is the erosion of our symbiotic relationship with the joint warfighter which diminishes the credibility, relevance, and effectiveness of ALSSA solutions to joint interoperability gaps.

## End State
ALSSA’s end state is an informed joint force with immediate access to TTP solutions that increase interoperability and lethality while continuously providing timely and effective feedback through multiple information pathways.
History of ALSSA

• 1973: CSAF (Gen Brown) and CSA (GEN Abrams) initiated the TAC-TRADOC Dialog to increase joint coordination and interoperability

• 1975: HQ TAC and HQ TRADOC established a joint directorate, Air-Land Forces Application (ALFA), for development of joint concepts, doctrine, and procedures for the conduct of the Air-Land Battle

• 1992: MCCDC and LANTFLT assigned permanent billets to ALFA … became ALSA

• 1997: ACC and TRADOC transfer organizational oversight responsibilities to respective doctrine centers

• 1998: Joint Duty Assignment Validation Board validated all ALSA Center positions as joint

• 2022: Services voted to include Space Force. ALSA became Air Land Sea Space Application (ALSSA)
